SPRINT 3: March 8-21

Standup #1, March 9	
Albert	
What did you work on since the last standup?	I am planning the CI/CD pipeline
What are you committing to next?	Starting the CI/CD pipeline
When do you think you'll be done?	End of sprint
Do you have any blockers?	Assignments
Dianna	
What did you work on since the last standup?	Creating extra graphics and icons
What are you committing to next?	Continuing to create graphics and icons
When do you think you'll be done?	Next standup or standup after
Do you have any blockers?	No
Emily	
What did you work on since the last standup?	Fixing photo upload routing
What are you committing to next?	Fixing photo upload routing
When do you think you'll be done?	next sprint
Do you have any blockers?	issues with github merge
Jaehyeon	
What did you work on since the last standup?	Improving the form for the listings. Mostly designing the components.
What are you committing to next?	I will implement the image upload section
When do you think you'll be done?	By next standup
Do you have any blockers?	No.
Thorge	

What did you work on since the last standup?	Refactoring of Listing routes to adhere to overall project structure.
What are you committing to next?	Ensuring backend routes are secure.
When do you think you'll be done?	Next standup
Do you have any blockers?	-

Standup #2, March 12

Albert

What did you work on since the last standup?	Started the CI/CD pipeline
What are you committing to next?	Continuing the CI/CD
When do you think you'll be done?	End of sprint
Do you have any blockers?	Assignments

Dianna

What did you work on since the last standup?	Continuing the icons and graphics design
What are you committing to next?	Finishing up the icons and graphics design, adding extra screens for
When do you think you'll be done?	Next standup or standup after
Do you have any blockers?	No

Emily

What did you work on since the last standup?	Fixed photo upload routing
What are you committing to next?	Fixing photo upload routing
When do you think you'll be done?	next sprint
Do you have any blockers?	no

Jaehyeon

What did you work on since the last	Implement the image uploader that makes

standup?	a request to image upload.
What are you committing to next?	Address geocoding so taht we can write actual address and store the coordinates
When do you think you'll be done?	Next standup meeting
Do you have any blockers?	No

Thorge	
What did you work on since the last standup?	Ensuring backend routes are secure.
What are you committing to next?	Implementing preferences in the backend.
When do you think you'll be done?	Hopefully next sprint.
Do you have any blockers?	A bit of midterm preparation...

Standup #3, March 14	

Albert	
What did you work on since the last standup?	Set up the dockerfile for Node
What are you committing to next?	Finishing the dockerfile setup
When do you think you'll be done?	Next standup
Do you have any blockers?	Assignments

Dianna	
What did you work on since the last standup?	Adding additional screens for the app transitions
What are you committing to next?	Designing a logo
When do you think you'll be done?	Next standup or standup after that
Do you have any blockers?	No

Emily	
What did you work on since the last standup?	Finished all image functionality

What are you committing to next?	Designing schema for bookings
When do you think you'll be done?	likely 2 standups
Do you have any blockers?	Design conflicts with listings
Jaehyeon	
What did you work on since the last standup?	I made it so that if user enters the address, it geocodes it and it saves the coords to the listing
What are you committing to next?	I will work on the profile page
When do you think you'll be done?	Next standup
Do you have any blockers?	No
Thorge	
What did you work on since the last standup?	User preferences in the backend. (routes etc)
What are you committing to next?	Implementing custom sorting based on preferences for autosuggestion of parking spots in backend.
When do you think you'll be done?	In two standups.
Do you have any blockers?	-

Standup #4, March 16	
Albert	
What did you work on since the last standup?	Setup the EC2 Instance for CD
What are you committing to next?	Finishing Github Actions for CI
When do you think you'll be done?	Next standup
Do you have any blockers?	Assignments
Dianna	
What did you work on since the last standup?	Designing the logo

What are you committing to next?	Continue making logo iterations, add extra screens and clean-up
When do you think you'll be done?	next standup
Do you have any blockers?	no
Emily	
What did you work on since the last standup?	Bookings schema + Editing listings schema
What are you committing to next?	Bookings schema + availability functionalities
When do you think you'll be done?	next standup
Do you have any blockers?	no
Jaehyeon	
What did you work on since the last standup?	FInished making the interface for the frontend page
What are you committing to next?	I will implement the custom filtering of the listings`
When do you think you'll be done?	Hopefully by next sprint
Do you have any blockers?	No
Thorge	
What did you work on since the last standup?	Implementing custom sorting based on preferences for autosuggestion of parking spots in backend.
What are you committing to next?	Implementing custom sorting based on preferences for autosuggestion of parking spots in backend.
When do you think you'll be done?	Next Standup.
Do you have any blockers?	One final midterm...

Standup #5, March 18
Albert

What did you work on since the last standup?	Finished the dockerfile
What are you committing to next?	Uploading the dokcerfile to docker hub
When do you think you'll be done?	Two more standups
Do you have any blockers?	Assignments

Dianna

What did you work on since the last standup?	Designing logo and extra screens
What are you committing to next?	Adding design for messaging screen
When do you think you'll be done?	Next standup
Do you have any blockers?	no

Emily

What did you work on since the last standup?	Bookings schema, finished designing
What are you committing to next?	More schema tweaks, started on some routes for it.
When do you think you'll be done?	the schema design will be solidified next standup
Do you have any blockers?	Dependencies on listings schema might be an issue in the future

Jaehyeon

What did you work on since the last standup?	Worked on making the custom search
What are you committing to next?	Continue working on fixing this bug
When do you think you'll be done?	Next sprint
Do you have any blockers?	Yes, there is a bug with with react native on ios where whenever I dismount a component from the render tree it crashes the entire program.

Thorge

What did you work on since the last standup?	Implementing custom sorting based on preferences for autosuggestion of parking spots in backend.
What are you committing to next?	Making deliverables ready for submission of sprint3.
When do you think you'll be done?	Next Standup.
Do you have any blockers?	-

Standup #6, March 21

Albert

What did you work on since the last standup?	Finished the backend CI/CD pipeline with EC2 instance
What are you committing to next?	Finalizing tests for Node + adding frontend CI
When do you think you'll be done?	March 26
Do you have any blockers?	No

Dianna

What did you work on since the last standup?	Adding design for messaging screen
What are you committing to next?	Reimplementing design with changes for requirements, adding AI chatting design feature
When do you think you'll be done?	Next standup or next standup after
Do you have any blockers?	No

Emily

What did you work on since the last standup?	Bookings routes
What are you committing to next?	Bookings routes
When do you think you'll be done?	a few standups
Do you have any blockers?	no

Jaehyeon	
What did you work on since the last standup?	I worked on displaying the details of the listings when user clicks on it.
What are you committing to next?	I will try to make a separate page for each listing where the users are able to see more data about the listings and be able to book them.
When do you think you'll be done?	In two standup meetings.
Do you have any blockers?	Yes I still couldnt figure out how to fix this re-render crash bug, so I left it as is now, just keeping the content on the table.
Thorge	
What did you work on since the last standup?	Making deliverables ready for submission of sprint3.
What are you committing to next?	Implementing autosuggestion in the frontend.
When do you think you'll be done?	Next standup.
Do you have any blockers?	-
