SPRINT 2: February 15-March 7

Standup #1, February 19	
Albert	
What did you work on since the last standup?	Making sure auth works properly
What are you committing to next?	Starting on the middleware for the backend
When do you think you'll be done?	2 or 3 standups
Do you have any blockers?	Interviews + other coursework
Dianna	
What did you work on since the last standup?	Added extra buttons + stylization
What are you committing to next?	Add styling and layouts in Figma prototype
When do you think you'll be done?	Next standup
Do you have any blockers?	Midterms
Emily	
What did you work on since the last standup?	Backend upload api
What are you committing to next?	Backend upload api
When do you think you'll be done?	2 standups
Do you have any blockers?	No
Jaehyeon	
What did you work on since the last standup?	Developed a way to grab the user's access token to send for request if a user is logged in
What are you committing to next?	Test whether this grabbed token works
When do you think you'll be done?	By next standup
Do you have any blockers?	No

Thorge

What did you work on since the last standup?	Setting up Expo Development Environment for app build on my System
What are you committing to next?	Setting up DB and Auth access
When do you think you'll be done?	Next standup
Do you have any blockers?	

Standup #2, February 24

Albert

What did you work on since the last standup?	Adding middleware to the authenticated routes
What are you committing to next?	Finishing middleware and separating the route logic.
When do you think you'll be done?	Next standup
Do you have any blockers?	None

Dianna

What did you work on since the last standup?	Added styling and layouts in Figma prototype
What are you committing to next?	Refine official screen for login/signup in Figma prototype
When do you think you'll be done?	Next standup
Do you have any blockers?	Midterms

Emily

What did you work on since the last standup?	Backend upload api
What are you committing to next?	Frontend interaction with backend cloudflare
When do you think you'll be done?	next standup
Do you have any blockers?	No

Jaehyeon

What did you work on since the last standup?	Use the token to make a form to make new listings
What are you committing to next?	Keep on working on making new listing form
When do you think you'll be done?	Hopefully by next standup
Do you have any blockers?	No

Thorge

What did you work on since the last standup?	Finishing the setup of development environment on my system
What are you committing to next?	Route for adding listings to the data base
When do you think you'll be done?	Next standup
Do you have any blockers?	-

Standup #3, February 27

Albert

What did you work on since the last standup?	Cleaning up routing of backend
What are you committing to next?	Finish cleaning up routing and creating the middleware.
When do you think you'll be done?	Next standup
Do you have any blockers?	No

Dianna

What did you work on since the last standup?	Refined official screen for login/signup in Figma prototype
What are you committing to next?	Refine official screen for new listing page in Figma
When do you think you'll be done?	Next standup
Do you have any blockers?	Midterms

Emily

What did you work on since the last standup?	Frontend interaction with backend cloudflare
What are you committing to next?	Frontend interaction with backend cloudflare
When do you think you'll be done?	Next standup
Do you have any blockers?	No

Jaehyeon

What did you work on since the last standup?	Use the token to make a form to make new listings
What are you committing to next?	I will setup backend routes for creating geospatial queries to get nearby parking spaces.
When do you think you'll be done?	Next standup
Do you have any blockers?	No

Thorge

What did you work on since the last standup?	Route for adding listings (and some schema stuff)
What are you committing to next?	Fetching listings based on parameters
When do you think you'll be done?	Next standup
Do you have any blockers?	-

Standup #4, March 3

Albert

What did you work on since the last standup?	Added a test middleware
What are you committing to next?	Integrating the frontend so the middleware can be functional
When do you think you'll be done?	More than 1 standup

Do you have any blockers?	Course work
Dianna	
What did you work on since the last standup?	Refined official screen for new listing page in Figma
What are you committing to next?	Refine official screen for profile page in Figma prototype
When do you think you'll be done?	Next standup
Do you have any blockers?	Midterms
Emily	
What did you work on since the last standup?	Finished frontend interaction with backend cloudflare
What are you committing to next?	Upload image with public URLs
When do you think you'll be done?	next standup
Do you have any blockers?	No
Jaehyeon	
What did you work on since the last standup?	Use isochrones maps to grab the geojson of a given address
What are you committing to next?	Integrate this feature with searching
When do you think you'll be done?	Next meeting
Do you have any blockers?	no
Thorge	
What did you work on since the last standup?	Custom search of listings based on parameters
What are you committing to next?	Functionality to retrieve user listings and user info
When do you think you'll be done?	Next standup
Do you have any blockers?	

Standup #5, March 5

Albert

What did you work on since the last standup?	I worked on integrating the frontend with the auth layer.
What are you committing to next?	Continuing to work on the auth layer.
When do you think you'll be done?	Next standup
Do you have any blockers?	No

Dianna

What did you work on since the last standup?	Refined official screen for profile page in Figma prototype
What are you committing to next?	Refine official screen for viewing listings on the map markers in Figma prototype
When do you think you'll be done?	Next standup
Do you have any blockers?	Midterms

Emily

What did you work on since the last standup?	Finished upload image with public URLs
What are you committing to next?	Calendar component
When do you think you'll be done?	A few standups
Do you have any blockers?	Incompatible OS

Jaehyeon

What did you work on since the last standup?	Integrated the isochrone map with the search, so user can type their name in frontend and get nearby parking spots
What are you committing to next?	I will test the features and make sure everything is integrated well
When do you think you'll be done?	By next standup
Do you have any blockers?	no

Thorge

What did you work on since the last standup?	Functionality to retrieve user listings and user info
What are you committing to next?	Writing tests for the functionality i added during this sprint
When do you think you'll be done?	Next standup
Do you have any blockers?	-

Standup #6, March 7

Albert

What did you work on since the last standup?	Finished auth layer
What are you committing to next?	Cleaning up backend routing system
When do you think you'll be done?	Next standup
Do you have any blockers?	No

Dianna

What did you work on since the last standup?	Refined official screen for viewing listings on the map markers in Figma prototype
What are you committing to next?	Refine navigational components + extra components needed in Figma prototype; add animations and transitions in component styles in Figma prototype
When do you think you'll be done?	Next standup
Do you have any blockers?	Midterms

Emily

What did you work on since the last standup?	Worked on solving OS blocker issues
What are you committing to next?	Continue calendar component
When do you think you'll be done?	Next standup
Do you have any blockers?	-

Standup #6, March 7

Albert

What did you work on since the last standup?	Finished auth layer
What are you committing to next?	Cleaning up backend routing system
When do you think you'll be done?	Next standup
Do you have any blockers?	No

Dianna

What did you work on since the last standup?	Refined official screen for viewing listings on the map markers in Figma prototype
What are you committing to next?	Refine navigational components + extra components needed in Figma prototype; add animations and transitions in component styles in Figma prototype
When do you think you'll be done?	Next standup
Do you have any blockers?	Midterms

Emily

What did you work on since the last standup?	Worked on solving OS blocker issues
What are you committing to next?	Continue calendar component
When do you think you'll be done?	Next standup
Do you have any blockers?	-

Jaehyeon

What did you work on since the last standup?	Made sure every component is well integrated
What are you committing to next?	I will work on allowing users to select filters for parking spots in the front end
When do you think you'll be done?	By next sprint
Do you have any blockers?	No

Thorge

Standup #6, March 7

Albert

What did you work on since the last standup?	Finished auth layer
What are you committing to next?	Cleaning up backend routing system
When do you think you'll be done?	Next standup
Do you have any blockers?	No

Dianna

What did you work on since the last standup?	Refined official screen for viewing listings on the map markers in Figma prototype
What did you work on since the last standup?	Writing tests for the functionality i added
What are you committing to next?	Finishing doc for this sprint
When do you think you'll be done?	today
Do you have any blockers?	-
